Dear Editor:

Hereby, I would like to bring to your attention that, due to an omission of my part, the conflict of interest statement does not appear in the article entitled “Metabolism and effect of dehydroepiandrosterone (DHEA) in the central nervous system”, published in number 3 of volume 25 of your prestigious journal. I should mention that, in previous years, I had been a member of the Editorial Committee of the journal. There are several reasons for this omission, but I am aware that none of them justifies it, so I would be very grateful if you would kindly publish this letter. I thank you in advance for your attention.

Kind regards.
