

APPRECIATION TO REVIEWERS 2022

Peer-review is a critical component of scholarly publications. Some submissions require several review rounds to comply with quality standards. Recommendations from peer-reviewers are very valuable for Editors to make decisions on acceptance or rejection of manuscripts. Archivos de Neurociencias provides recognition to peer-reviewers through Web of Science (formerly Publons), but also offers public acknowledgement for this important contribution.

Peer-reviewers for Archivos de Neurociencias during 2022:

- Abel Santamaría del Angel
- Adriana Casallas Vanegas
